Dear Sir

I am writing to apply for the position of iOS & Android Developer as advertised in the poster, that was handed around in my local area. As you can see from the attached CV, I have previous experience in the field, I have worked with Sony developers for one year; I am still with the company but I am looking to leave within the coming months. In addition to this experience I also have full qualifications in the area and I have the skills that are needed in order to fulfill the position that is advertised.

So I think that I could give a valuable contribution to the job and I feel that this innovative approach is something that I can contribute to fulfil and I will do it with attention and enthusiasm.

Thank you very much for your consideration, I look forward to hearing from you soon,

Yours Faithfully

Mr. Vito Raikkonen
