Dear Sir/Madam,

I am writing to apply for the position of iOS & Android developer as advertised in the job advert. I heard about this job opportunity from the newspaper.

I am really interested about this job because of the developing opportunities I believe it might be offering. As you can see from the attached CV I have worked in the similar positions in the past which makes me believe I am also qualified enough for this job. The job experience alongside with the hobbies related to this have taught me how to develop modern mobile apps. Of course I have also learned about how to work reliable and on time.

Thank you very kindly for your consideration.

Yours faithfully,  
Martina Salerno
