Summer jobs program 2012

I am writing to apply for the position of working in the John Hopkins Summer Jobs programme, as advertised in the flyer. I would hope to acquire the job advertised.

I am a student in the Baltimore City, as I am 16 years old. I have very good attendance to my course and have a good GPA. I have had a part time job for a few months also, which has given me some money, but also very good skills whilst working in a team. I have acquired a diploma in mechanics also, which has given me many different skills and shows that I can work hard. I am interested in the job, as it would be a very good experience, and I feel that I can do a very good job. Also I feel that the money could really benefit a student such as myself. I believe that my educational background and skills would be well suited to the position.

In conclusion I would very much like the opportunity to have an interview. I am looking forward to hearing from you.

Yours faithfully.
