

ORANGE GROUP

As a group, we have decided that our favourite moment was when we visited Taormina. We found this experience good because we were able to see some historical places within the area. This gave all exchange students a chance to experience the heritage of the country. After we went to Teatro Greco we visited Isola Bella which is a famous beach along the coast of Taormina. The experience on the beach was very funny as it gave us a chance to hang out as a group and we were able to get to know each other outside of the school. On the beach we all went swimming. This was a very funny moment because Carmelo was jumping down from lots of rocks.
