

YELLOW GROUP

We feel like our best experience so far has been going to the beach because we were all together as a group enjoying the sun. Another experience was the long bus journey to and from the Moak Company, where we all sang together which made us close friends. It was an interesting experience for us to visit the company because it was something different that we have not seen before. Another beautiful experience was when we went to the Greek theatre which is the most important Sicilian theatre.
