BEING YOUNG ENTREPRENEURS

FOCUS GROUP DISCUSSION STUDENTS

– CHALON-SUR-SAÔNE – FRANCE
MAY 14th -20th 2017

1. Do you feel this project has been useful for you?

Oh yes, we are really lucky to have had the opportunity to participate in this project. It has been a great experience spending some time with European guys and visiting their countries. This experience has been useful not only to know other cultures and customs, but also to create new friendships.

At the beginning we were a bit worried about meeting new people, but now, we are good friends and we all hope to meet again in the future.

2. Do you think you have improved: your knowledge about entrepreneurship, your ITC and English language competences thanks to this project? Discuss

ENTREPRENEURSHIP: Some of us were completely new to Business but very much interested in it.

The lessons, the workshops, the seminars and all the activities we have been involved in, have been really interesting and we have learnt how to launch a business and how to write a Business plan.

The Welsh students come from a Business school but, thanks to this project, they have had the chance to know how entrepreneurship works in the various European countries.

ITC: we improved very much our ITC competences as we prepared many PPT presentations and videos to present our works, we did on-line questionnaires, we used google.doc to fill in the Business glossary and the Common language dictionary, and the Twinspace platform to reply to several forums.

ENGLISH LANGUAGE: We had the great chance to improve our communication skills, in fact we now understand and speak English much better because all the activities of the project have been carried out in English: workshops, seminars, preparation and presentation of the works, etc.

We also had to communicate with our peers and even if some of us did not know the language in the best way, the Welsh guys were very kind and helped us a lot!

3. Has the project helped you to understand other cultures, improve international cooperation, knocking down stereotypes and prejudices?

It was very nice to learn about the customs of other countries.

We learnt about the lifestyle and the traditions of Finland, France, Italy and Wales, improved our international cooperation, learnt more together and become more confident.

We have knocked-down some stereotypes and confirmed others.

We can say that, in this project we made great friends and despite cultural differences and language we got a very good relationship and we get along well with each other.

We think that everyone, at least once in his life, should live such a great experience!!!
