Dear Partners,

- **We attach an hotels information in Berlin.**

It is important that you make the reservation as soon as possible.

Berlin is a very big city and in time to start our meeting, we would like to suggest Hotel Ibis Berlin City Nord for all project meeting participants, because we are planning to have our meeting there. We always had problems with the timely start of the other meeting when the participants stayed at different hotels, because some people were always late and it is not easy to find your way in a foreign city.
